### THEATRICAL AND OTHERWISE.

News and Comment of Stage Matters and Other Gossip.

Charles L. Davis, who is known as "Alvin Joslin" is dangerously ill of pneumonia in Pennsylvania. His recovery is doubtful.

Mrs. Leslie Carter will play "Zaza" at the Grand, in Cincinnati, during the week beginning March 12th. The prices will range from fifty cents to two dollars.

Marion Manola Mason, who sued for an absolute divorce from her husband, Jack Mason, was Wednesday granted \$25 weekly alimony and \$250 counsel fees by Judge Smith, of the Supreme Court.

There is a bum minstrel organization touring the Bluegrass with several trunks full of chestnuts. Here's hoping that they will skip Paris. They punished us last year.

There are three "Quo Vadis" companies on the road this season. The Whitney production is creating a furore everywhere, with Joseph Haworth as leading man, and another company is playing the large business at The Hopkins, in Chicago. Aiden Benedict, who is probably the weakest romantic actor, on the road is the owner and star of the third company. Benedict's "Quo Vadis" will likely prove a howling farce.

### "THE CHRISTIAN"

The advance sale of seats for "The Christian" is evidence that it will prove one of the biggest engagements of the season at the Lexington opera house. The strongest scene in the play is when John Storm, driven to the verge of madness by the belief that Horatio Drake is conspiring to the moral destruction of Glory Quayle, and frenzied to jealousy, attempts to kill her. The acting in this situation is intensely realistic and thrillingly effective. The end of the scene finds Glory Quayle on her knees with a crucifix raised, praying for the safety of John Storm, who has left her and been attacked by a mob in the streets. As the curtain falls the sounds of the organ are heard, which greatly adds to the realism of this remarkable situation. Notwithstanding the excellent incident, and the great scene at the end of the second act, where John Storm saves Lord Robert Urs and Horatio Drake from the attack of his parishioners, it is the opinion of very many people who have seen the play that the most touchingly effected situation of all occurs just before the curtain falls, when Horatio Drake claps the hands of Glory Quayle and John Storm, and leaves them reunited with a fervent "God bless you."

About one hundred Christians will go up to the matinee tomorrow. Secure seats and railroad tickets from Geo. D. Mitchell.

### STOCK AND TURF NEWS.

Sales and Transfers Of Stock, Crop, Etc. Turf Notes.

Congressman Bailey, of Texas, has named twenty-two mares in the Kentucky Futurity for foals of 1900.

Texas will send a mammoth steer to the Paris Exposition. It weighs 1,700 pounds and its horns measure nine feet seven inches from point to point. It is owned by J. M. Doble, a Kentuckian.

The biggest average price for tobacco crop this season was received at Louisville Tuesday for a crop of seven hogsheads from Franklin county. Prices ranged from \$7.40 to \$18 and the average price for the crop was \$13.

Woodford & Buckner's stable of race horses, including Pink Coat and others, arrived in Louisville yesterday, to be trained for the Spring races. Talbot Bros' stable, with John Bright and eight others, also reached Louisville this week.

The Stanford Journal says: W. P. Grimes is feeding 110 young cattle on crushed corn and cotton seed meal with fine success. He also feeds his milch cows cotton seed meal and there has been a decided improvement in them since he commenced. They give more and richer milk. The meal costs a little over a cent a pound and should not be fed too lavishly on the start.

### Be-han-ne-sey Entertainment.

REV. E. L. POWELL, who held a successful meeting at the Paris Christian Church several years ago, gives the following endorsement of the Be-han-ne-sey Oriental entertainment to be given Monday night at the opera house:

Louisville, Ky., Feb. 1900. It is with very great pleasure I give a written testimonial of my appreciation of the Be-han-ne-sey entertainment. Both the lecturer and the lecture captivated all of us. As an exposition and living illustration of Oriental customs and life, I do not see how it could have been improved.

E. L. POWELL,  
Pastor First Christian Church.

## You Can't

## Dodge Them

Did you ever try to dodge the rain-drops? Did not succeed very well, did you? It's just as useless to try to escape from the germs of consumption. You can't do it. They are about us on every hand and we are constantly taking them into our lungs.

Then why don't we all have this disease? Simply because these germs cannot gain a foothold in a strong throat and lungs. It's when these are weak that the germs master.

The body must be well supplied with fat. The danger comes when the blood is poor and the body is thin. If your cough does not yield, and your throat and lungs feel raw and sore, you should not delay another day. Take

## Scott's Emulsion

of Cod-Liver Oil with Hypophosphites at once. It will heal the inflamed membranes and greatly strengthen them as well. The digestion becomes stronger, the appetite better and the weight increases. The whole body becomes well fortified and the germs of consumption cannot gain a foothold.

It's this nourishing, sustaining and strengthening power of SCOTT'S EMULSION that has made it of such value in all wasting and exhausting diseases.

## ADULTERATED FOODS.

## Senate Committee Makes a Report After Investigating the Matter.

The Sale of Deleterious and Unhealthy Food Will Be Prohibited, and Those Cheapened By Adulteration Must Be So Marked.

Washington, March 1.—The senate committee on manufactures submitted to the senate a report on the extensive investigation it has conducted into allegations that many important articles of food and drink are adulterated to the public health or, where the adulterant is not injurious to health, a fraud on the purchaser. Accompanying the report is a great mass of testimony taken in the leading cities of the country. The report says the importance of the investigation made and the legislation proposed can not be too strongly emphasized. It adds:

"The adulteration of prepared or manufactured foods is very extensively practiced, and in many cases to the great discredit of our manufacturers. It is only fair to say, however, that a large proportion of the American manufacturers who are engaged in adulterating food products do so in order to meet competition, and it is the expression of those gentlemen to say, 'We would be glad to get out of the business of adulterating. We would like to quit putting this stuff in coffee, and would be willing to brand our syrups for what they are, but our competitors get a trade advantage which we can not surrender.'"

"It is the purpose of this committee to adopt this uniform rule: To prohibit the sale of deleterious and unhealthy food products, and as to those food products which are simply cheapened by adulterants, to compel the marking of those goods for what they are. Deleterious food products should be prohibited and the rest thoroughly regulated."

"There have been two general ways suggested as to the matter of regulation. First, to put the important food products under the internal revenue law, as we have in the case of butter, filled cheese, and, at the last congress, flour. The pure flour bill has absolutely prohibited the sale of adulterated flour, which was found to be in many cases dangerous to public health, and has increased the sale of American flour probably 25 per cent. in other countries. If the rule established by this committee can be carried out as to our other food products, we will not only protect the consumer and the honest manufacturer who is willing to sell his goods for what they are, but we will also establish a reputation for our food products which will assist us to find a ready market for them in other countries."

"The other plan to regulate the food products is contained in senate bill 2426, which establishes a department under the secretary of agriculture and provides for the establishment of a board which shall fix the standards for foods, drinks and for drugs, based on the American pharmacopoeia. The strong argument against this plan is the fact that it would be cumbersome to take all the small articles of food products that are now adulterated, and allow their sophistication or adulteration, for the purpose of cheapening, and require a stamp upon each of the small packages offered for sale."

## GREAT LOSS TO CATTLE.

Severe Blizzard Prevails Throughout Texas and the Indian Territory, Doing Great Damage.

Denison, Tex., March 1.—The storm in this section and in the Indian Territory is the worst experienced in years. Six inches of snow fell in the territory. Railway traffic is impeded and trains are arriving several hours late. Large snow drifts have accumulated on the track of the Missouri, Kansas & Texas in the territory.

Telephone messages from different points in the territory report that cattle losses will be very heavy. A blizzard prevails here, and specials from sections of Texas give accounts of rain, hail and snow, but no material damage has been done save to strawberries and cabbage. Cattle are not suffering enough in Texas to cause any material damage.

Ship Burned at Sea.  
San Francisco, Cal., March 1.—The Merchants' exchange has received word that the well-known ship St. John, while bound from New York for Yokohama with a cargo of coal oil, was burned at sea off the coast of Japan, near Banju, Wangi, Tuesday. Capt. I. H. Fales and his crew escaped to the shore with their personal effects.

Farm House Wrecked.  
Waterloo, Ia., March 1.—A terrible explosion at the farm house of Gustavus Norn wrecked his house and injured his two young children so badly that they will die. The explosion is supposed to have resulted from a keg of gunpowder stored in the garret.

Train Robber Killed.  
Kansas City, Mo., March 1.—Lon Curry, one of the train robbers who engaged in the Wilcox, Wyo., holdup on the Union Pacific last June, when about \$30,000 was secured, was shot and killed Wednesday by officers at Dodson, near here, while resisting arrest.

Big Bills.  
Cincinnati, March 1.—The United States treasury here received from Washington one hundred \$1,000 bills for distribution in Cincinnati and adjacent territory, if needed.

## TAIL-END COLLISION.

Mrs. Schmidlapp and Daughter of Cincinnati, and an Unknown Woman Killed—Others Hurt.

Kansas City, Mo., March 1.—Three persons are dead and seven others are seriously injured as a result of Tuesday night's tail-end collision on the Missouri Pacific railroad at Independence, Mo.

The Dead.—Mrs. J. G. Schmidlapp, Cincinnati; an unknown woman, cremated, believed to be from St. Louis. Miss Emma Schmidlapp, of Cincinnati, died at 10:15 Wednesday morning.

Injured.—W. R. Vaughan, a Cincinnati newspaper man, arm broken in two places; Mrs. J. R. Balke, mother of Mrs. Schmidlapp, arm broken, badly burned about the face; J. C. Schmidlapp, husband of Mrs. Schmidlapp, arm broken and head bruised; L. F. Sheldon, Sedalia, badly bruised and cut; William Ryan, baggagemaster, slightly injured.

The dead and injured were brought to this city and placed in hospitals. Mrs. Schmidlapp's body was taken to the morgue. The body of the unknown woman is still underneath the wreck of the engine and parlor car.

The railroad officials are severely censured for the delay in getting a relief train to the scene, but they claim that the blinding snow storm and the position of a freight train on the track made it impossible for them to reach the wreck sooner.

The blame of the wreck is attached to no one. It is conceded that the storm had rendered conditions such that the wreck could not have been prevented.

Vaughan, the Cincinnati newspaper man, whose arm was crushed and who was pinioned for some time under a window frame, displayed great nerve in waiting to be extricated. He waited three hours for medical treatment.

## CUBAN STATISTICS.

Number of Births, Deaths and Marriages During the Last Ten Years on the Island.

Washington, March 1.—Maj. John G. Davis, surgeon U. S. V., and chief sanitary officer of Havana, Cuba, has forwarded to the war department some statistics in regard to the births, deaths and marriages. These statistics cover the last ten years ended December 31, last, and show that during that decade there were 40,509 births, 9,396 marriages and 101,933 deaths, an apparent excess of 61,423 deaths over births. The death rate was heaviest during 1898, 1897 and 1896, in the order named. Of the total number of deaths during the decade, 5,413 were from yellow fever and 96,519 from other causes.

Of the 40,509 births during the ten years covered by the report, 34,495 were whites, 2,248 Negroes, and 3,763 mulattoes.

## Three Men Blown to Pieces.

Sistersville, W. Va., March 1.—There was an explosion of 120 quarts of nitroglycerin about a mile from the city and William Fleming was blown to atoms. What was found of the remains were brought to the city in a cigar box. Word was received that H. H. Benedict and A. C. Campbell had been blown up in a similar explosion at Ten mile, near this city. In both instances the men were literally blown to pieces.

## Plague Reaches Mexico.

Austin, Tex., March 1.—State Health Officer Blunt received a telegram from Surgeon General Wyman to the effect that the bubonic plague has been officially reported in existence on the island of Cuzumel, state of Yucatan, Mexico. The gulf coast and Rio Grande quarantine stations were at once notified by Dr. Blunt and ordered to take the necessary precautions in the premises.

## A Gale at Mobile, Ala.

Mobile, Ala., March 1.—A terrific wind and hail storm struck this city shortly after 3 o'clock Wednesday morning and lasted until 5:30. The wind reached the velocity of a gale, and blew down many fences and trees in this vicinity. Telegraph wires are down, but from reports of incoming steamers no damage has been done to shipping. Reports from along the gulf coast say the storm was general.

## Army Officer Kills Himself.

Washington, March 1.—Gen. Otis has reported to the war department that Second Lieutenant John R. Waugh, 39th volunteer infantry, shot himself through the heart while temporarily deranged from extreme nervousness, on the 27th inst., at Manila. Lieut. Waugh was born in Nebraska in 1875.

## Congressman Gayle's Bills.

Representative Gayle returned Monday from New Orleans, where he had been for several days. Mr. Gayle will in a few days introduce a bill to allow the widow of the late Evan E. Settle \$5,000. This amount is to be exclusive of the balance of \$1,500 salary that is usually allowed the widow of a Congressman whose husband dies before the expiration of his term. On Tuesday he introduced a bill to carry out the findings of the Court of Claims in the case of Mrs. James H. Dennis, of Gratz, Owen county. The claims amount to \$25,630. Mr. Gayle says he feels confident that the bill will be favorably reported from the Committee on War Claims.

## Against The Election Law.

Senator J. C. S. Blackburn favors the modification of the Goebel election law, and also favors a constitutional amendment re-establishing the old viva voce method of voting. He says that the Goebel election law cost the Democratic party 20,000 votes at the last election. The *Courier-Journal* also calls on the legislature to modify the law, and prepare an amendment to the constitution to abolish the Australian ballot system.

A TEAM of Cynthiana bowlers passed through Paris last night for Maysville where they played a match game with the local team.

A SMOOTH citizen who claimed to be a Bible student swindled many Maysville people in January by soliciting subscriptions to Munsey's Magazine at seventy-five cents per year. Bourbon people should watch for him.

## Sham Antiquities.

A few years ago, in Soho, London, there was a factory for antique coppers which is probably still in operation. The legitimate business of the place was the manufacture of stewpans and kettles, but when trade was dull in that way any sort of antiques for which there happened to be a demand was produced instead.

An old incense burner, for example, would be reproduced by the dozen by hammering over a chuck. If ornamented with pierced work, the copies would be coated with asphaltum, through which the design would be traced, when it would then be eaten out in an acid bath, saving the time which would be required to cut out the pattern with a piercing saw. The bath leaves thin edges, by which such work may be detected.

The work would then be annealed and would be permitted to oxidize and scale. Pickling with muriatic acid and salt, to produce a good coating of verdigris, would complete the job. Sometimes these "antiques" would be purposely broken and would be clumsily mended with solder or with pure tin if the piece was to pass for a very ancient one. Chiseled metal was reproduced by casting and "dubbing" over with the hammer, then pickling, annealing and bending. In such ways helmets, copper and brass castings for antique furniture and the like were made.—Art Amateur.

They also have teeth of the mastodon, horns of the elk, teeth of other animals, and a part of a kettle used by Daniel Boone. These relics were found ten feet under ground, imbedded in pebbles and gravel which smell strongly of sulphur. If you cannot read this small print at a distance of 14 inches your eyesight is failing and should have immediate attention:

Imperial spectacles and eyeglasses have perfect lenses, always perfectly centred and made of purest material, set in frames of the highest elasticity and consequently of greatest durability, united with the utmost lightness and elegance. When both frames and lenses are scientifically fitted by Dr. C. H. Bowen's system they always give satisfaction for they are perfect. Never buy cheap spectacles, nor of men who do not know how to fit them. You will get poorly adjusted spectacles, or poor, imperfect lenses, and are better off without any glasses than with either of these defects. Buy Imperial spectacles of a reliable, skillful dealer, and they will last longer without change and be cheapest in the end.

We have engaged the services of Dr. C. H. Bowen who will visit our store on the second and last Thursdays of each month and invite all to call and have their eyes examined, for which there is no charge. Satisfaction guaranteed or money refunded.

Next visit—Thursday, March 8, 1900. Hello, 170.

The British at Last Reach the Besieged City of Ladysmith.

The British Loss So Far Is 12,834, of Which 2,319 Were Added During the Last Fortnight—This Does Not Include Buller's Loss.

London, March 1.—The war office has received the following dispatch from Gen. Buller:

"Lyttelton's Headquarters, March 1.—9:05 a. m.—Gen. Dundonald, with Natal carabineers and composite regiments, entered Ladysmith last night."

"The country between me and Ladysmith is reported clear of the enemy. I am now moving on Nelthorpe."

London, March 1.—The news of the relief of Ladysmith was received with much more enthusiasm than any previous event of the war. Flags were immediately hoisted on a number of hotels and other buildings and Gen. Buller's success was everywhere received with the heartiest satisfaction. The news has not yet affected the stock exchange. The lord mayor of London immediately telegraphed his congratulations to Gen. Buller and the queen received the news at Windsor castle the bells on the Curfew tower of the castle were rung in honor of the event.

London, Feb. 27.—The war office has received the following dispatch from Lord Roberts:

"Paardeberg, Feb. 27.—7:45 a. m.—Gen. Cronje and all of his force capitulated unconditionally at daylight and is now a prisoner in my camp. The strength of his force will be communicated later. I hope that her majesty's government will consider this event satisfactory, occurring as it does on the anniversary of Majuba."

The prisoners, who number about 3,000, will be formed into companies under our own officers. They will also leave here Tuesday, reaching the Modder river Wednesday, when they will be sailed to Cape Town in detachments.

Twenty-nine Transvaal officers were captured and 18 Free State officers were made prisoners.

The guns captured from the Transvaal forces were three 75-centimeter Krupps, 9 one-pounders, and one Maxim gun. From the Free Staters the British captured one 75-centimeter Krupp and one Maxim gun.

The officers captured by Gen. Roberts, besides Gen. Piet Cronje, include the following well-known commanders: Chief Commandant M. J. Wolterman, a member of the Volksraad; Field Cornet Frus, a Scandinavian; Major Albrecht, the famous German artilleryman; Major Von Dewitz, the distinguished German officer, responsible for most of the splendid engineering works of the Boers since the commencement of the war.

New York, March 1.—But for the surrender of Gen. Cronje, which overshadowed the news from Natal, England would be shuddering over the British reverse at Railway Hill, where the Inniskilling Fusiliers were caught in a Boer trap and slaughtered. The London Mail's correspondent, under date of Pieters, February 24, describes the engagement:

"Last night the Inniskilling Fusiliers, mixed with some of the Dublin Fusiliers, and the Connaught Rangers, attempted to carry Railway Hill from Pieters. They were under a continuous fire, through which they passed up the heavy broken ground to the first Boer trench. Half way up the hill the Boers retreated to the crest, and then came back on either flank of the Irish troops, enfilading the captured trench with a savage cross as well as a direct fire."

"All night and until 9 o'clock in the morning our men held the position under a ceaseless fire and at terrible cost. At roll call only five officers and one hundred men answered to their names."

"Col. Thackery and Maj. Sanders, of the Inniskillings; Col. Sitwell, of the Dublin Fusiliers; Capt. Maitland, of the 2d Gordon's, and Col. Thorold, of the Welsh Fusiliers, were killed. Two hundred and fifty-two of the rank and file were killed or wounded."

"Gen. Lyttelton's brigade relieved them at 10 o'clock this morning, when the Boer artillery pounded the troops holding the center kopjes without pause, but with little effect."

Rensburg, Feb. 28.—Gen. Clements, escorted by a squadron of Inniskillings, entered Colerberg this morning and received an enthusiastic reception. A number of the leading men have been arrested. The inhabitants are well and not starving. They have suffered many indignities at the hands of the Boers, but no violence."

Arundel, Feb. 27.—Rensburg was occupied by Gen. Clements after a slight skirmish and with no serious opposition. Neither the town nor the railway has been injured."

London, March 1.—According to a special dispatch from Cape Town, dated February 27, Lord Kitchener is at Arundel, the Boers are retreating to Norval's Point, and all is quiet at Stormberg."

**Overdose of Whisky and Death.**  
Hinton, Va., March 1.—James Morris, while drinking a wager with Alonzo Nelson in H. G. Tyree's saloon, fell in an unconscious condition just as he swallowed the third beer glass of whisky. He expired before medical aid could be summoned. Nelson, who had taken the same quantity of whisky, is still in a precarious condition."

**Netherlands Minister Arrives.**  
New York, Feb. 28.—Baron Gevers, minister of the Netherlands to the United States, arrived on the steamer Rotterdam from Rotterdam."

#### ALL WOMEN AGREE.

A druggist in Macon, Ga., says: "I have sold a large quantity of Mother's Friend, and have never known an instance where it has failed to produce the good results claimed for it. All women agree that it makes labor shorter and less painful."

#### Mother's Friend

is not a chance remedy. Its good effects are readily experienced by all expectant mothers who use it. Years ago it passed the experimental stage. While it always shortens labor and lessens the pains of delivery, it is also of the greatest benefit during the earlier months of pregnancy. Morning sickness and nervousness are readily overcome, and the liniment relaxes the strained muscles, permitting them to expand without causing distress. Mother's Friend gives great recuperative power to the mother, and her recovery is sure and rapid. Danger from rising and falling breasts is done away with completely.

Sold by druggists for \$1 a bottle.  
THE BRADFORD REGULATOR CO.

Rev. W. H. Sitzer, W. laton, N. Y., writes: "I had dyspepsia over twenty years, and tried doctors and medicines without benefit. I was persuaded to use Kodol Dyspepsia Cure and it helped me from the start. I believe it to be a panacea for all forms of indigestion." It digests what you eat. W. T. Brooks.

#### Question Answered.

Yes August Flower still has the largest sale of any medicine in the civilized world. Your mothers, and grandmothers, never thought of using anything else for indigestion or biliousness. Doctors were scarce, and they seldom heard of Appendicitis, Nervous Prostration or Heart failure, etc. They used August Flower to clean out the system and stop fermentation of undigested food, regulate the action of the liver, stimulate the nervous and organic action of the system, and that is all they took when feeling dull and bad with headaches and other aches. You only need a few doses of Green's August Flower, in liquid form, to make you satisfied there is nothing serious the matter with you. Sold by dealers in all civilized countries. oct-27-ly

#### Little Pimples Turn to Cancer.

Cancer often results from an impurity in the blood, inherited from generations back. Few people are entirely free from some taint in the blood, and it is impossible to tell when it will break out in the form of dreaded cancer. What has appeared to be a mere pimple or scratch has developed into the most malignant cancer.

"I had a severe cancer which was at first only a few blotches, that I thought would soon pass away. I was treated by several able physicians, but in spite of their efforts the cancer spread until my condition became alarming. After many months of treatment and growing steadily worse, I decided to try S. S. S., which was so strongly recommended. The first bottle produced an improvement. I continued the medicine, and in four months the last little scab dropped off. Ten years have elapsed, and not a sign of the disease has returned." E. F. Williams, Gillsburg, Miss.

It is dangerous to experiment with cancer. The disease is beyond the skill of physicians. S. S. S. is the only cure, because it is the only remedy which goes deep enough to reach cancer.

#### S.S.S. For the Blood

(Swift's Specific) is the only blood remedy guaranteed Purely-Vegetable. All others contain potash and mercury, the most dangerous of minerals. Books on Cancer and blood diseases mailed free by Swift Specific Company, Atlanta, Georgia.
